

### III. 5

#### **Circuit Breaker School Return to Learn Plan 2021-2022**

This plan is developed to meet the following state guidelines:

- The use of a face mask is required at all times inside the building.
- Social distancing is required as much as possible.
- The school will conduct symptom screenings and temperature checks before allowing admittance to the building for all students.
- An increase in school-wide cleaning and disinfection will be implemented.

#### **In-person Instruction**

- Circuit Breaker School will be providing in-person instruction daily from 8:30 – 2:00.
- A face mask (that securely cover the mouth and nose) will be required to be worn all day while in the building. If your child does not have a face mask, one will be provided.
- Regular hand washing and use of hand sanitizer will be encouraged.
- All students will complete a symptom/temperature check daily upon entering the building. If a student presents with a temperature over 100.4 or COVID symptoms, parents/emergency contacts will be contacted to come and get the student from school.
- Desks will be spaced apart in the classrooms to allow for social distancing to the extent possible.
- Hallway traffic will be scheduled to allow for social distancing to the extent possible.
- Breakfasts/Lunches will be served in individual pre-packaged containers.
- Students who must quarantine will be allowed to make-up all work.

#### **Communication**

- It is very important that we be able to contact parents in case of an emergency or a change to this plan. Please make sure to keep your contact information current with the office.
- If your child or a family member come in contact with someone with COVID 19, or tests positive for COVID 19, please do not send your child to school and contact the office as soon as possible.
- If your child is showing symptoms of COVID 19 (cold or flu-like symptoms to include: cough, difficulty breathing, sore throat, pressure in the chest, extreme fatigue, earache, persistent headache, diarrhea, and persistent/new loss of smell or taste) and/or has a temperature over 100.4, please do not send them to school and contact the office as soon as possible.
- Parent email and Remind text messages will be the primary form of communication.
